

Crossword

Graphing – Crossword Puzzle

Axis	Histogram	Median	Range
Coordinate	Horizontal	Misleading	Scale
Cumulative	Interval	Mode	Table
Frequency	Mean	Outlier	Vertical

Crossword

Across:

3. the horizontal and vertical edges of the graph
4. the sum of all the items divided by the number of items in the set
7. horizontal and vertical lines that are used to locate an ordered pair
8. a graph that uses an irregular interval, gap in the scale or bar size to persuade you to see the data for the purposes of the graph maker
10. a column that shows a running total of all frequencies
11. the gap between the numerical values of one axis on a graph
12. a way to organize data that allows you to easily see patterns and relationships
15. a value in a set that is very different from other values
16. the pattern of values that makes up one axis on a graph

Down:

1. the difference between the least and greatest values in the set
2. a bar graph that shows the number of data items that occur within each interval
5. parallel to the horizon; goes across
6. tells the number of times an even, category or group occurs
9. standing upright at a right angle to the horizon
13. the value or values that occur most often
14. the middle value when the data set is placed in numerical order
